

Notice of permitted activity

National Environmental Standard for Plantation Forestry (NES-PF)

Under the NES-PF a written notice is required from foresters for any afforestation, earthworks, river crossings, forestry quarrying and harvesting prior to the activity commencing. This written notice form ensures that foresters can comply with the NES-PF.

Please send your written notice to notifications@gw.govt.nz.

1. Administration details

Forest name: _____

Address: _____

Legal description(s): _____

Contact company: _____

Contact name: _____

T: Business: _____ T: Private: _____

Email address: _____ T: Mobile: _____

Please list any documents that accompany your written notice.

No other documents

Wilding tree calculator

Earthworks management plan

Flood flow calculations

Erosion and sediment management plan

Harvest plan

I/we hereby certify that, to the best of my/our knowledge and belief, the information given in this written notice is true and correct.

I/we understand that the Council may charge me/us for all costs actually and reasonably incurred in monitoring permitted activities for earthworks, river crossings, forestry quarrying, and harvesting. Subject to my/our rights under sections 357B and 358 of the RMA to object to any costs, I/we undertake to pay all and future monitoring costs incurred by the Council. Without limiting the Council's legal rights, if any steps, including the use of debt collectors, are necessary to recover unpaid costs, I/we agree to pay all costs associated with recovering those costs.

Full name: _____

Date: _____

On behalf of: _____

(if applicable)

2. Activity details

Please provide a map showing the location of any activities notified below.

Afforestation (Regulation 10) Tick if applicable and provide details below:

What notice is required? All afforestation activities

When notice is required? Notice must be provided at least 20 and no more than 60 working days before commencement.

Start and end dates:

.....

Location (NZTM coordinates):

.....

Proposed setbacks

.....

Please provide a description on how setbacks are calculated:

.....

.....

Please provide a copy of the wilding tree calculator (as required by Regulation 11(4))

Earthworks (Regulation 25) Tick if applicable and provide details below:

What notice is required? Notice must be provided for earthworks (including road widening and realignment) involving more than 500 m² of soil disturbance in any 3 month period.

When notice is required? Notice must be provided at least 20 and no more than 60 working days before commencement and annually thereafter for ongoing operations. For salvage operations 2 days notice is required.

Start and end dates:

.....

Location (NZTM coordinates):

.....

Earthworks management plan: Tick if you have a plan in place. (This may be requested by GWRC)

River crossings (Regulation 38) Tick if applicable and provide details below:

What notice is required? All river crossings except a temporary crossing.

When notice is required? Notice must be provided at least 20 and no more than 60 working days before commencement.

River crossing type:

Single culvert

Battery culvert

Drift deck

Ford

Single-span bridge

Start and end dates:

.....

Location (NZTM coordinates):

.....

Flood flow estimations:

Tick if you have flow calculations. (This may be requested by GWRC)

 Forestry quarrying (Regulation 50) Tick if applicable and provide details below:

What notice is required? Notice must be provided for forestry quarrying where the volume of material extracted exceeds 200 m³ in any calendar year.

When notice is required? Notice must be provided at least 20 and no more than 60 working days before commencement and annually thereafter for ongoing operations.

Start and end dates:

Location (NZTM coordinates):

Proposed setbacks

Please provide a description on how setbacks are calculated:

Erosion and sediment management plan: Tick if you have a plan in place. (This may be requested by GWRC)

 Harvesting (Regulation 64) Tick if applicable and provide details below:

What notice is required? All harvesting activities.

When notice is required? Notice must be provided at least 20 and no more than 60 working days before commencement and annually thereafter for ongoing operations. For salvage operations 2 days notice is required.

Start and end dates:

Location (NZTM coordinates):

Harvest plan: Tick if you have a plan in place. (This may be requested by GWRC)

Please send your written notice to notifications@gw.govt.nz.
